Telephone 845-223-5114

Four Corners Subdivision & Taconic Hills/Stone Ridge Subdivision

Irrigation Ban:

The Four Corners Water District continues to operate with a Water Irrigation Ban for 2023. The irrigation ban is for both the Four Corners Subdivision and the Stone Ridge Subdivision. Restrictions include no irrigation of lawns. Watering landscape plants (flowers) with a hose, car washing, pool topping off, and house power washing are allowed. Irrigating lawns with a permanent or temporary irrigation system and/or hose system is not allowed at this time.

The Four Corners Water District provides water to the Four Corners Subdivision and the Taconic Hills/Stone Ridge Subdivision. All properties are to adhere to the irrigation ban.

The Town continues to work with our consulting Engineer and Hydrogeologist to complete the construction of Well #5 and the rehabilitation of Well #4. Both projects are underway and depending on the outcome, the projects should allow for a limited irrigation schedule to be implemented later this year.

We thank you for your cooperation and refrainment from irrigating your lawns. A follow up letter will be distributed in June or July to update residences of any changes to the Irrigation Ban. Please be aware that properties that are performing irrigation will be charged with a non-compliance penalty.

We recently met with the Four Corners HOA and continue to meet periodically to discuss the water status and provide updates for ongoing projects. Feel free to reach out to the Four Corners HOA or the Town Water and Sewer Department at 845-223-5114. Again, thank you for your continued cooperation!
